

# Author Index to Volume 9 (1989/90)

- |  |         |   |         |
|--|---------|---|---------|
| Altomare, D., M. Carulli, P. Casanova, D. Limongelli and F. Tangorra, A Prototype for the Integration of Information Resource Dictionary System and PCTE | 31- 47  | Standard Hangul (or Korean Script) Code   | 187-202 |
| Amer, P.D. and F. Çeçeli, Estelle Formal Specification of ISO Virtual Terminal   | 87- 104 | Köhler, D., <i>see</i> Baumann, P.  | 113-125 |
| Baumann, P., D. Köhler and J. Poller, Using Database Techniques for Data Modelling in Computer Graphics  | 113-125 | Laneve, C., <i>see</i> Fantechi, A.   | 11- 19  |
| Boom, H.J., C.B. Nielsen, A.D. McGettrick, P.D. Mosses, C. Rattray, R.D. Tennent and D.A. Watt, A View of Formal Semantics                               | 3- 9    | Limongelli, D., <i>see</i> Altomare, D.   | 31- 47  |
| Carulli, M., <i>see</i> Altomare, D.   | 31- 47  | Lombardo, A., A. Morzenti and S. Palazzo, On the Use of Estelle in the OSI Framework                        | 21- 29  |
| Casanova, P., <i>see</i> Altomare, D.  | 31- 47  | McGettrick, A.D., <i>see</i> Boom, H.J.   | 3- 9    |
| Çeçeli, F., <i>see</i> Amer, P.D.  | 87-104  | Moeck, H., Exchange of Technological Data via IGES  | 149-151 |
| Cheng, C.P., <i>see</i> Yannakoudakis, E.J.  | 127-141 | Morzenti, A., <i>see</i> Lombardo, A.   | 21- 29  |
| Ecma, European Computer Manufacturers Association, Achievements and Publications of ECMA in 1988   | 49- 54  | Mosses, P.D., <i>see</i> Boom, H.J.   | 3- 9    |
| Fantechi, A., S. Gnesi and C. Laneve, Two Standards Means Problems: a Case Study on Formal Protocol Descriptions   | 11- 19  | Nielsen, C.B., <i>see</i> Boom, H.J.  | 3- 9    |
| Gadre, J., C. Rohrer, C. Summers and S. Symington, A COS Study of OSI Interoperability   | 217-237 | Palazzo, S., <i>see</i> Lombardo, A.  | 21- 29  |
| Gnesi, S., <i>see</i> Fantechi, A.   | 11- 19  | Patel, A., Emerging Network Security Standards in an OSI Environment  | 239-247 |
| Kilov, H., Domains and Semantic Integrity  | 143-147 | Poller, J., <i>see</i> Baumann, P.  | 113-125 |
| Kim, K., A New Proposal for a  |         | Rattray, C., <i>see</i> Boom, H.J.  | 3- 9    |
|  |         | Rohrer, C., <i>see</i> Gadre, J.  | 217-237 |
|  |         | Summers, C., <i>see</i> Gadre, J.   | 217-237 |
|  |         | Symington, S., <i>see</i> Gadre, J.   | 217-237 |
|  |         | Tangorra, F., <i>see</i> Altomare, D.   | 31- 47  |
|  |         | Tennent, R.D., <i>see</i> Boom, H.J.  | 3- 9    |
|  |         | Varadharajan, V., Use of a Formal Description Technique in the Specification of Authentication Protocols    | 203-215 |
|  |         | Ward, D.S., Using Open Systems Interconnection Standards as the Base for a Comprehensive Distributed System | 105-112 |
|  |         | Watt, D.A., <i>see</i> Boom, H.J.   | 3- 9    |
|  |         | Winkler, J., ISO IRDS Is an Oxymoron  | 249-250 |
|  |         | Yannakoudakis, E.J. and C.P. Cheng, A Domain-Oriented Approach to Improve the User-friendliness of SQL      | 127-141 |

# Subject Index to Volume 9 (1989/90)

ANSI (American National Standards Institute)	249, 251	IGES	149
ANSI IRDS	249	Information modeling	143
Architecture	105	Information resource dictionary system	31
Authentication	203	Integrating IRDS schema	249
CASE	249	Interoperability	105, 217
CCITT X. 509	203	IRDS	249
Commodity	105	IRDS reference model	249
Communications	105	ISDN	217
Complementary private architecture	105	ISO	87, 249, 251
Computer networks	239	ISO/DP 9798	203
Computer network systems	203	ISO/IEC JTCI	251
Conformance testing	11, 217	ISO IRDS	249
Consistency constraints	113	Kong's 3-set	187
Contextual transformation	187	Korean character sets	187
Corporation for Open Systems International	217	LOTOS	11, 203
Database systems	113	Modeling	203
Data communication	203	Multivendor Information Systems	105
Data modelling	113	Names	143
Data types	143	Network protocols	87
Domain relational calculus	127	Networks	105
ESPRIT	31	Network security	239
Estelle	11, 21, 87	Normology	251
Extended syntax	127	Object management system	31
External and internal Hangul code	187	Open distributed networking	239
FDT	87	Open systems	105
Finite state machine	87	OSI	11, 87, 105, 217, 239
FIPS	249	OSI protocols and services	21
Formal definition techniques	3	Pascal	21
Formal description	87	Portable common tool environment	31
Formal description techniques	11, 21	Product data exchange	149
Formal semantic definition	3	Product model	149
Formal semantics	3	Programming languages	3
Formal specification	11, 87, 203	Programming language standards	3
Graphics systems	113	Proprietary	105
Hanging-laundry style	187	Protocol modeling	87
		Protocols	203
		Protocol specification	87
		Reference models	113
		Relational databases	127
		SCUSA (Standards Council of the USA)	251
